

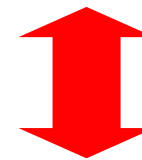

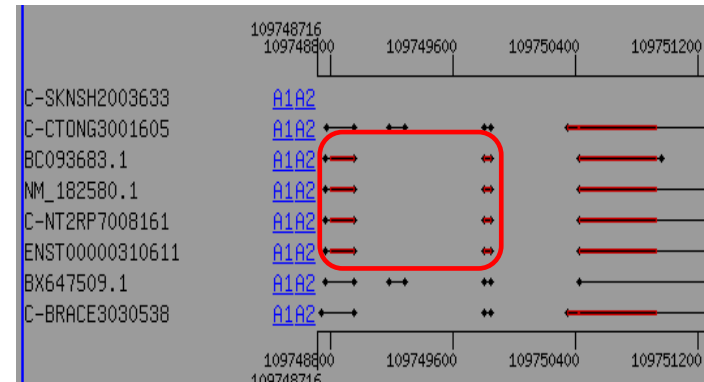

Fig2-11-1 Method of reference cDNA selection on mRNA variation viewer

Selected reference sequence is **BC093683.1**

The screenshot shows the 'OnePass annotation setting window' and the 'cDNA annotation setting window'. In the 'cDNA annotation setting window', the 'Reference cDNA' dropdown menu is open, and 'BC093683.1' is selected. A green box with the word 'Click' points to the 'Apply' button in the 'cDNA annotation setting window'.

Selected reference sequence is **C-CTONG3001605**

The screenshot shows the 'OnePass annotation setting window' and the 'cDNA annotation setting window'. In the 'cDNA annotation setting window', the 'Reference cDNA' dropdown menu is open, and 'C-CTONG3001605' is selected. A green box with the word 'Click' points to the 'Apply' button in the 'cDNA annotation setting window'.
